

Economical Wireless Emergency Call for Public Buildings

Ideal for:
Libraries
Schools

Medical Centres
Health Clubs

Council Buildings
OH&S & Duress

Utilise as many fixed Emergency call points or portable emergency pendants as required. Pressing the Emergency Pendant will deliver a pre-determined ID message to one or more fixed position annunciators and/or portable pagers instantly identifying the need for assistance. Long range and long battery life, easy to install and maintain. Approximately 100 meters range or greater with the use of a repeater. Excellent for modern building constructions.
