

To teach a Ness Pendant into the Pendant Alert receiver.

1. Turn dip switch setting 1 on.
2. Then proceed to turn on dip switch either 2,3, 4 or 5 (to choose what slot to teach the pendant into).
3. The LED will begin to flash then press the pendant to teach the pendant into the receiver.
4. Press the pendant repeatedly to teach it in once you have taught it in the light that was flashing will no longer flash and will stay on.
5. Turn dip switch 1 off and leave the other (2,3,4 or 5) on.
