FALLS PREVENTION HARDWIRED KITS

RRP
\$310.00

A-SL-BPHW-FOLDABLE-KIT

SAFE LIFE FOLDABLE HARDWIRED BED EXIT KIT - FACILITY USE

The Safe Life Bed Exit Kit comes complete with all parts for immediate Nurse Call use. This particular bed pad lays under the mattress protector/Kylie. When the resident lifts themselves off the bed pad, the carers will be alerted via the nurse call system.

KIT CONTAINS:

- 1 x Safe Life Foldable Bed Exit Pad (A-SL-BPHW-01)
- 1 x Safe Life Hardwired monitor (A-SL-MON-HW)
- 1 x Power supply (A-CBM/BME-PP)
- 1 x Male to male cord (A-GCORD-2M)
- 1 x Double adaptor (A-ADAP-02-SM)
- 1 x Monitor soft cover and brackets

RRP
\$284.00

A-SL-CPHW-KIT-FAC

SAFE LIFE HARDWIRED CHAIR EXIT KIT - FACILITY USE

The Safe Life Chair Exit Kit comes complete with all parts for immediate Nurse Call use. Place the pad on the chair or seat. When the resident lifts themselves off the chair pad, the carers will be alerted via the nurse call system.

KIT CONTAINS:

- 1 x Safe Life Chair Exit Pad (A-SL-CPHW-01)
- 1 x Safe Life Hardwired monitor (A-SL-MON-HW)
- 1 x Power supply (A-CBM/BME-PP)
- 1 x Male to male cord (A-GCORD-2M)
- 1 x Double adaptor (A-ADAP-02-SM)
- 1 x Monitor soft cover and brackets

RRP
\$332.00

A-BPSC-KIT

CURA1 HARDWIRED CHAIR EXIT KIT - FACILITY USE

The Cura1 Chair Exit Kit comes complete with all parts for immediate Nurse Call use. Place the pad on the chair or seat. When the resident lifts themselves off the chair pad, the carers will be alerted via the nurse call system.

KIT CONTAINS:

- 1 x Cura1 Hardwired Chair Exit Pad (A-CPHW-01)
- 1 x Cura1 Hardwired monitor (A-BME-03)
- 1 x Power supply (A-CBM/BME-PP)
- 1 x Male to male cord (A-GCORD-2M)
- 1 x Double adaptor (A-ADAP-02-SM)
- 1 x Monitor soft cover and brackets

FALLS PREVENTION HARDWIRED KITS

A-BPLB-KIT-FACILITY

CURA1 HARDWIRED BED EXIT KIT - FACILITY USE

The Cura1 Bed Exit Kit comes complete with all parts for immediate Nurse Call use. This particular bed pad lays under the mattress protector/Kylie. When the resident lifts themselves off the bed pad, the carers will be alerted via the nurse call system.

KIT CONTAINS:

- 1 x Cura1 Hardwired Bed Exit Pad (A-BPLB-01)
- 1 x Cura1 Hardwired monitor (A-BME-03)
- 1 x Power supply (A-CBM/BME-PP)
- 1 x Male to male cord (A-GCORD-2M)
- 1 x Double adaptor (A-ADAP-02-SM)
- 1 x Monitor soft cover and brackets

A-HW-MATPAD-KIT

CURA1 HARDWIRED UNDER MATTRESS BED EXIT SENSOR KIT - FACILITY USE

- 1 x Cura1 Hardwired monitor (A-BME-03)
- 1 x Power supply (A-CBM/BME-PP)
- 1 x Male to male cord (A-GCORD-2M)
- 1 x Double adaptor (A-ADAP-02-SM)
- 1 x Monitor soft cover and brackets

FALLS PREVENTION HARDWIRED KITS

RRP
\$198.00

A-SL-BP-CON-KIT

SAFE LIFE IN-LINE MONITOR BED EXIT KIT - FACILITY USE

Plugs direct into nurse call system. The Safe Life In-Line Monitor Bed Exit Kit comes complete with all parts for immediate Nurse Call use. This bed pad lays under the mattress protector/Kylie. No bulky monitor, just a neat, small in-line monitor. When the resident lifts themselves off the bed pad, the carers will be alerted via the nurse call system. 2 second delay = less false alarms.

KIT CONTAINS:

- 1 x In-Line Monitor (A-SL-CON-M)
- 1 x In-Line Monitor Bed Exit Pad (A-SL-BP-CON-01)

RRP
\$158.00

A-SL-CP-CON-KIT

SAFE LIFE IN-LINE MONITOR CHAIR EXIT KIT - FACILITY USE

Plugs direct into nurse call system. The Safe Life In-Line Monitor Chair Exit Kit comes complete with all parts for immediate Nurse Call use. This chair pad is to be placed on the chair/seat. No bulky monitor, just a neat, small in-line monitor. When the resident lifts themselves off the chair pad, the carers will be alerted via the nurse call system. 2 second delay = less false alarms.

KIT CONTAINS:

- 1 x In-Line Monitor (A-SL-CON-M)
- 1 x In-Line Monitor Chair Exit Pad (A-SL-CP-CON-01)

RRP
\$209.00

A-SL-UMAT-CON-KIT

SAFE LIFE IN-LINE MONITOR UNDER MATTRESS BED EXIT SENSOR KIT - FACILITY USE

Plugs direct into nurse call system. The Safe Life In-Line Monitor U/ mattress Bed Exit Kit comes complete with all parts for immediate Nurse Call use. This bed pad lays under the mattress itself. No bulky monitor, just a neat, small in-line monitor. When the resident lifts themselves off the mattress, the carers will be alerted via the nurse call system. 2 second delay = less false alarms.

KIT CONTAINS:

- 1 x In-Line Monitor (A-SL-CON-M)
- 1 x In-Line Monitor Chair Exit Pad (A-SL-CP-CON-01)

FALLS PREVENTION HARDWIRED REPLACEMENT PARTS

RRP
\$246.00

A-MAXIMAT-FOLDABLE
A-MAXIMAT-FOLDABLE-BEIGE

SAFE LIFE FOLDABLE FLOOR SENSOR MAT HARDWIRED

The foldable floor pressure mat hard-wired is designed to immediately alert that a person has exited the bed.

- This mat can be folded into 3 for easy storage and shipping
- Durable quality vinyl
- Foldable for storage and shipping
- Plugs straight into nurse call point via 6.5mm jack plug breakcord
- Comes with break cord and built in double adapter + spares available Ex Stock
- Measures unfolded 119 cm x 60 cm
- Folded size is 60 cm x 40 cm

Compatibility options available to suit all nurse call connection configurations – Please specify call point connection type on orders.

RRP
\$324.00

A-MAXIMAT-01

CURA1 FLOOR SENSOR MAT HARDWIRED

This large hardwired floor pressure mat is designed to immediately alert that a person has exited the bed.

- Large (1200 x 600mm) pressure mat
- Anti-slip 'Yoga Top'
- Waterproof and washable using a low profile, non-slip material
- Breakcord with jack plug
- A double adapter (See section III) may be required if a bedside pendant cord is also in use.

Compatibility options available to suit all nurse call connection configurations – Please specify call point connection type on orders.

RRP
\$237.00

A-SL-MAXI MAT-02

SAFE LIFE FLOOR SENSOR MAT HARDWIRED

Much like the Cura1 hardwired floor mat, this large Safe Life model floor pressure mat is hard-wired and designed to immediately alert that a person has exited the bed.

- Large (1200 x 600mm) pressure mat
- Anti-slip 'Yoga Top'
- Waterproof and washable using a low profile, non-slip material
- Connects into Nurse Call Point via breakcord with 6.5mm jack plug and built in double adaptor

Compatibility options available to suit all nurse call connection configurations – Please specify call point connection type on orders

FALLS PREVENTION HARDWIRED REPLACEMENT PARTS

A-STANDARD-MAT-01

RRP
\$205.00

SAFE LIFE STANDARD FLOOR SENSOR MAT - HARDWIRED

This smooth vinyl floor sensor mat is one of our most popular.

- Measures 120 x 61 cm
- Waterproof and Washable
- Comes with break cord and built in double adapter + spares available Ex Stock
- 12 Month warranty

Compatibility options available to suit all nurse call connection configurations – Please specify call point connection type on orders.

A-CRASHMAT-CURA

RRP
\$309.00

CURA1 CRASH MAT WITH SENSOR - FACILITY USE

This floor crash mat is designed for residents who tend to fall out of the bed. Once impact with the mat is detected, this mat not only breaks the fall but will send an alarm through the nurse call system.

- Connects to nurse call point
- Open dimensions 1800 x 750mm
- Folded dimensions 900 x 750mm
- 1 Year life expectancy
- Recommended weight range for reliable operation: 30kg to 200kg

Compatibility options available to suit all nurse call connection configurations – Please specify call point connection type on orders.

RRP
\$145.00

A-SL-BL7272

CRASH MAT (NO NURSE CALL SENSOR) - 50MM X 600MM

Place the Safety Crash Mat on the floor at the residents bed-side. Should the resident fall out of the bed the safety mat will help stop injuries by softening the impact.

- Foldable: made from three sections of safety foam that are then covered by hinged nylon
- The underside of the mat features a unique textured surface that prevents that mat from easily slipping if someone stands on it by mistake.
- Includes a reflective strip that runs along the edge of the mat. This strip will glow in the dark or even when the lights are low to make

A-SL-BPHW-01

SAFE LIFE FOLDABLE BED PAD - HARDWIRED

This hardwired bed pad is foldable for easy storage and shipping.

- Measuring 76cm x 52cm unfolded
- Measuring 52cm x 38cm when folded
- The A-SL-HMON bedside control unit/monitor is a necessary accessory
- Placed under the fitted sheet or mattress protector at shoulder position
- Built in breakcord with RJ connection for monitor connectivity
- Works with the Safe Life & Cura1 Monitors

A-BPLB-01

CURA1 BED PAD - HARDWIRED

This pressure sensitive bed exit sensor is usually placed under the Kylie mattress protector at shoulder position.

- Measuring 760 mm x 510 mm
- The A-BME-03 bedside control unit is a necessary accessory
- Comes with USB to RJ breakcord for monitor connectivity
- Works with the Safe Life & Cura1 Monitors

A-HW-MATPAD

CURA1 UNDER MATTRESS BED PAD - HARDWIRED

This hardwired bed exit pad is to be placed underneath the mattress rather than under the mattress protector.

- Dimensions 760 x 510mm.
- Recommended weight range for reliable operation: 40kg to 200kg
- The A-BME-03 bedside control unit is a necessary accessory.
- Comes with USB to RJ breakcord for monitor connectivity
- Works with the Safe Life & Cura1 Monitors

A-SL-CPHW-01

SAFE LIFE CHAIR EXIT PAD - HARDWIRED

The Safe Life chair pad offers the same falls detection functionality as the Safe Life bed pad in a smaller chair friendly size. It will trigger an alarm along with audible tone in the event of the resident leaving or falling from the chair.

- Measures 38 x 19 cm
- Low Cost and long lasting
- Works with the Safe Life & Cura1 Monitors
- Considered a consumable item

FALLS PREVENTION HARDWIRED REPLACEMENT PARTS

RRP
\$116.00

A-SL-BP-CON-01

SAFE LIFE IN-LINE MONITOR BED PAD - FACILITY USE (IN-LINE MONITOR NOT INCLUDED)

The latest release of the Safe Life range is the In-Line Monitor Bed pad.

This Bed pad does not require a standard monitor for operation; however, it does need an in-line monitor (A-SL-CON). This makes it extremely cost effective. Simply plug directly into the bedside call point/button. This is a foldable bed pad, as seen folded to the left.

RRP
\$104.00

A-BPSC-01

CURA1 CHAIR EXIT PAD - HARDWIRED

Where a chair is in close proximity to a call-point this chair exit sensor can be hard-wired to its BME-03 controller (listed below). It will trigger an alarm along with audible tone in the event of the resident leaving or falling from the chair.

- Measures 35 x 38 cm
- The A-BME-03 bedside control unit/monitor is a necessary accessory
- Works with the Safe Life & Cura1 Monitors

RRP
\$116.00

A-SL-UMAT-CON-01

SAFE LIFE IN-LINE MONITOR UNDER MATTRESS BED PAD - FACILITY USE (IN-LINE MONITOR NOT INCLUDED)

The latest release of the Safe Life range is the In-Line Monitor Under Mattress Bed pad.

This Bed pad does not require a standard monitor for operation; however, it does need an in-line monitor (A-SL-CON). This makes it extremely cost effective. Simply plug directly into the bedside call point/button.

RRP
\$84.00

A-SL-CP-CON-01

SAFE LIFE IN-LINE MONITOR CHAIR PAD - FACILITY USE (IN-LINE MONITOR NOT INCLUDED)

The latest release of the Safe Life range is the In-Line Monitor chair pad.

This chair pad does not require a standard monitor for operation; however, it does need an in-line monitor (A-SL-CON). This makes it extremely cost effective. Simply plug directly into the bedside call point/button.

RRP
\$100.00

A-SL-MON-HW

SAFE LIFE BED-EXIT, CHAIR-EXIT AND FLOOR MAT MONITOR - HARDWIRED

This low-cost monitor is an optional accessory for floor sensor mat use but is essential for a hardwired bed and chair exit sensors.

The A-SL-HMON can be powered by a 9v battery (included) or by power pack.

- Default reset - Which requires the two buttons on the side of the monitor to be pressed simultaneously in order to avoid residents attempting to reset the alarm
- Volume control
- Adjustable time delay - limiting false alarm calls
- Includes a socket for connection to the bedside call-point
- Temporary disarm which allows for a resident to be moved from a bed or chair by the carer without activating an alarm or making a noise.
- For operation through the nurse call system a A-GCORD is required

RRP
\$151.00

A-BME-03

CURA1 BED-EXIT AND CHAIR EXIT MONITOR - HARDWIRED

This monitor is an optional accessory for hardwired floor sensor mat use but is essential for a hardwired bed and chair exit sensors.

The A-BME-03 Hardwired monitor can be powered by a battery (included) or by power pack.

- Reset button
- Alarm delay adjustment
- Volume control for the audible alert • Pause mode to attend to a patient without triggering the alarm
- Includes a socket for connection to the bedside call-point
- For operat

RRP
\$84.00

A-SL-CON

SAFE LIFE IN-LINE MONITOR - FACILITY USE

This In-Line Monitor is for our new range of hardwired undermattress, bed and chair exit pads. Simply plug one of our new bed/chair pads into the call point via the In-Line Monitor lead. This "plug and play" design makes for a more affordable solution.

2 second delay = less false alarms.

- 18 Months battery life expectancy
- User replaceable batteries
- Low Battery warning

Compatibility options available to suit all nurse call connection configurations.

PIR SENSOR BEAMS

RRP
\$285.00

A-BEDEXIT-PIR-01

OUT OF BED CURTAIN SENSOR BEAM - SINGLE PIR

This small Curtain PIR fits to the wall at the head of the bed in a purpose-built wall mount bracket. It is easy to install and can be moved from room to room with ease.

It projects an invisible beam to the end of the bed. When the resident's legs break this beam an alarm call is generated. Connects to all nurse call systems. Comes complete with wall mount bracket.

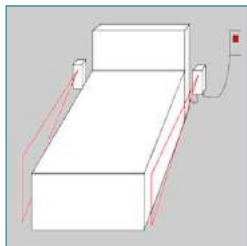

All cables are at the head of the bed eliminating trip hazards.

Compatibility options available to suit all nurse call connection configurations.

For a video demonstration please visit us at <https://safelife.com.au/product/single-bed-exit-pir/>

RRP
\$367.00

A-BEDEXIT-PIR-05

OUT OF BED CURTAIN SENSOR BEAM - DUAL PIR

This PIR has dual interconnected sensors. One PIR sensor each side of the bed makes it suitable for beds that can be accessed from either side (not against a wall).

Comes with a power pack wall mounting brackets and an in-Line ON/OFF switch located where it connected to the call point. Comes complete with 2 wall mount brackets.

Compatibility options available to suit all nurse call connection configurations.

For a video demonstration please visit us at <https://safelife.com.au/product/single-bed-exit-pir/>

RRP
\$380.00

A-CL-MULTI-PORT-IBeam-KIT

Cura1 Wireless PIR Sensor Beam Kit with Multiport Receiver – Facility Use

Easily mountable and simple to install, the wireless PIR curtain sensor beam is the perfect addition to all set-ups where the resident is a falls risk or may need to be monitored. The multiport receiver will plug into the bedside call point and send an alarm through to the nurse call system when the iBeam PIR senses that someone has walked through a door way, or is attempting to get out of bed.

The Cordless Multiport receiver can monitor up to 5 wireless devices. (2 x pads and 3 x other transmitters eg. PET)

RRP
\$538.00

A-CL-IBeam-KIT

Cura1 Wireless PIR Sensor Beam Kit – Facility Use

Easily mountable and simple to install, the wireless PIR curtain sensor beam is the perfect addition to all set-ups where the resident is a falls risk. The Cordless Falls Monitor will plug into the bedside call point and send an alarm through to the nurse call system when the iBeam PIR senses that someone has walked through a door way, or is attempting to get out of bed.

Unlike the Multiport Receiver kit above, an interconnecting cord from the Cordless Falls Monitor into the bedside call point means this kit can be used as a standalone system or integrated into the nurse call/call bell system. The Cordless Falls Monitor can monitor up to 6 wireless Cura1 devices – which means you can add 5 more sensors to this kit (chair exit sensor pad, bed exit sensor pad, wireless help button and more).

FALLS PREVENTION WIRELESS KITS

RRP
\$624.00

A-CL-MULTIPORT-FM-KIT

CURA1 WIRELESS FLOOR SENSOR MAT KIT - WITH MULTIPORT RECEIVER - FACILITY USE

This cordless floor sensor mat kit is designed to alert that a person has exited a bed/chair or entered a room via the multiport receiver cordless monitoring device. The multiport receiver plugs directly into the nurse call system call point.

- 1 x Male to male cord (A-GCORD-2M)
- 1 x Double adapter (A-ADAP-02-SM)
- 1 x Monitor soft cover and brackets

RRP
\$654.00

FALLS PREVENTION WIRELESS REPLACEMENT PARTS

RRP
\$275.00

A-CBM-02

CURA1 RECEIVER/CONTROLLER FOR WIRELESS DEVICES

Multiple wireless device monitoring capability.

- Monitor up to 7 devices simultaneously - a single Premium pad/mat and up to 6 wireless devices
- Comes with durable ABS plastic enclosure and Caregiver Reset Key.
- Alarm memory and auto re-arm
- Amber LED visual alarm indicator
- Caregiver secure reset option
- Battery operated or optional external plug pack, up to 6 months battery life (nominal)
- 3 selectable alarm tones and adjustable alarm volume
- "Pause" feature allows caregiver to attend to the patient without setting the alarm off
- Alerts for lost nurse call connection, lost AC power supply & low battery
- Dimensions 120 x 77 x 40mm
- Up to 30m range when used with Wireless bed pads and chair pads

Item requires GCORD to allow for nurse call operation

RRP
\$165.00

A-CL-MULTIPORT
(Facility use only)

CURA1 MULTIPORT RECEIVER FOR WIRELESS DEVICES

Multiple wireless device monitoring capability.

Much Like the above device, the Multiport Receiver is a more compact, simplified version which will plug directly into a call point.

- Monitor up to 5 wireless devices and 1 hardwired device simultaneously (including pendant cord OR hardwired floor mat)
- Cord removal alarm
- Dimensions 78 x 46 x 33mm
- LED status & warning indicator lights
- Plugs directly into most nurse call systems - Stereo Tip & Sleeve config, however on request may be modified and supplied Tip & Ring at an additional cost.
- Battery operated or optional external plug pack, 3 months battery life (nominal)
- Up to 8-12m range when used with wireless devices

RRP
\$206.00

A-CL-MULTIPORT-02
(Facility use only)

CURA1 MOUNTED MULTIPORT RECEIVER FOR WIRELESS DEVICES

- Installed on a bracket away from the nurse call panel so it is suitable for congested nurse call bed head panels where directly mounting on the panel isn't possible.
- Works with up to 5 wireless devices. (2 x pad & 3x other transmitters eg PET)
- Works with: Cordless Bed/Chair Pad or Floor Mat; Personal Emergency Transmitter (PET); iBeam; Wired Nurse Call Pendant; Wireless Magnetic Reed Switch; Wireless Waterproof Call Buttons.
- LED Status and warning indicator lights.
- 3 Minute Pause Mode
- Cord removal alarm.

FALLS PREVENTION WIRELESS REPLACEMENT PARTS

RRP
\$176.00

A-ACTIVECARE-PAGER
(Home Care)

CURA1 ACTIVECARE PAGER

- Large easy-to-read 7-digit LCD screen displays device type and ID.
- Can be programmed to monitor up to 9 wireless devices
- Up to 5 simultaneous alarms can be stored in the pager's "Call Review" memory
- Vibration and tone selection for hard of hearing.
- Out of range check.
- Wireless reset capability.
- Direct signalling from wireless devices for use in home care environments.
- Easily cleanable buttons

RRP
\$336.00

A-MAXIMAT-CL

CURA1 FLOOR SENSOR MAT - WIRELESS

This Wireless product is designed to immediately alert that a person has exited the bed.

- Large soft 'yoga' top mat
- Measures 120 cm x 60 cm
- Waterproof and washable using a low profile, non-slip material
- 'Out-rigger' press-stud pocket that will allow the insertion of an A-CL-433M-TX-V5 transmitter (necessary accessory)

Under this part number no transmitter is supplied. Use this part number to purchase replacement floor mats. Either the A-CBM-02, A-ACTIVECARE-PAGER, A-CL-MULTIPOINT or A-CL-MULTIPOINT-02 is a necessary monitoring accessory (not included)

Also see Complete nurse call kits

RRP
\$459.00

A-MAXI-MAT-433

CURA1 WIRELESS FLOOR SENSOR MAT INCL. TRANSMITTER

- Same Floor mat sensor as above, however this part number includes the transmitter

Either the A-CBM-02, A-ACTIVECARE-PAGER, A-CL-MULTIPOINT or A-CL-MULTIPOINT-02 is a necessary monitoring accessory (not included)
Also see Complete nurse call kits

RRP
\$175.00

A-CL-MATPAD

CURA1 UNDER MATTRESS BED EXIT SENSOR PAD - WIRELESS

This Wireless bed exit pad is to be placed underneath the mattress rather than under the mattress protector.

- Pad dimensions: 800 x 290mm
- Needs A-CL433-TX-5V Transmitter (necessary accessory)
- Recommended weight range for reliable operation: 40kg to 200kg
- Material: Non allergenic PVC
- Under this part number no transmitter is supplied. Use this part number solely to purchase replacement pads.

Either the A-CBM-02, A-ACTIVECARE-PAGER, A-CL-MULTIPOINT or A-CL-MULTIPOINT-02 is a necessary monitoring accessory (not included)
Also see Complete nurse call kits

RRP
\$99.00

A-CCP-01

CURA1 CHAIR EXIT SENSOR PAD - WIRELESS

This Wireless chair pad is used on chairs and wheel chairs of persons subject to falls risks. Can be used on paradise chairs, recliners and lift chairs.

- Dimensions 380 x 255mm
- To be used with A-CL433-TX-V5 Transmitter (necessary accessory)
- Recommended weight range for reliable operation: 30kg to 200kg
- Under this part number it includes no transmitter and is the part number to use solely for supply of replacement pads

Either the A-CBM-02, A-ACTIVECARE-PAGER, A-CL-MULTIPOINT or A-CL-MULTIPOINT-02 is a necessary monitoring accessory (not included)

RRP

GATEWATCH-01

THE SAFELIFE GATEWATCH SYSTEM

The Australian designed and manufactured GateWatch alerting system uses the International Bluetooth Technology for its Door Location 'Beacons' and it's wide range of Personal Tags.

This system not only accommodates safe containment of residents and patients that tend to wander but can also allow both local and/or central alerting of assets that are leaving the building.

For example, the local proximity beeping option can avoid the problem of staff accidentally carrying Pagers, Tablets, Mobile and DECT phones home.

FEATURES AND BENEFITS

- Suits internal or outside locations via its waterproof design
- Adjustable Tag distance proximity via internal switch settings
- Connection for external alert e.g. strobe light or remote buzzer
- Satellite (clone) units for multiple or complex door locations
- Staff/Family override capability for authorized exit
- Contact closure to suit all brands of nurse call/Access Control systems
- Contacts provided for door latch/unlatch option
- Long battery Life Bluetooth Tags with replaceable battery
- Easy to install and designed for maintenance free operation

A-PROTRAC-MAXI

PROTRAC ID WANDERING ALERT SYSTEM

The Australian made system is complimentary to all nurse call systems in any size facility. Allowing up to 100 wrist tags to be worn at any one time the wandering alert system is discreet and versatile. The antenna which resembles a piece of Perspex can be mounted above the door and painted if desired otherwise placed inside the ceiling cavity. The Protrac wrist tags have been designed with longevity in mind. Using a low powered radio frequency. The wrist pendants will have a 3- 5-year life span, unlike other wandering systems where wandering wrist tags are disposable after the first year and are more expensive and complex to program. The Protrac ID wandering system must be installed by a qualified installer – Contact us if you need assistance.

RRP
\$154.00

A-PROTRAC-WRIST TAG
